India Rubber Goods.

SPRING TRADE, 1854.

D. HODGMAN, 17 *Maiden Lane* and 59 *Nassau Street* invites the attention of his former customers and numerous generally particularly Wholesale Buyers, to his immense stock of India Rubber Goods, which he has now on hand and is daily receiving from his Factories, including

COATS, LIFE PRESERVERS,
CAPES, HOSE,
GLOVES, CARRIAGE CLOTH,
PANTS, PIANO COVERS,
OVERALLS, MACHINE BELTING,
LEGGINGS, ENGINE PACKING,
CAPS, CROTON HOSE,
BEDDING JACKETS,

And every description of Rubber Goods manufactured.

The reputation of my Goods for their excellent quality is so well established as to render any further commendation entirely superfluous. Retailers may rest pleasure in selling Wholesale buyers of

Rubber Clothing,

That I am enabled to offer those inducements to purchase superior to what I have heretofore, and as I firmly believe superior to any that have been, or can be, offered them elsewhere.

Orders respectfully solicited and attended to with promptness and despatch by

House-keepers, look at this!

Admirable Invention.

PATENT SELF HEATING

SYCOTHING IRON.

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other mechanical implements; but females have been mostly neglected. This will be found to be the case with the *Patent Self Heating Smoothing Iron*, which will relieve them, to a very great degree, of the excessive and fatiguing labor of *Ironing*, besides being a great saving of time and expense. This Iron combines economy, convenience, neatness of labor, and despatch; one iron's worth of any thereof supplies it for a whole days' consumption of fuel. Hard wood coal from the stove will answer for the same purpose. It can be used in any room or in the open air. Parlors and Tailors' Irons are constructed upon the same principle, and possess equal simplicity.

For sale, wholesale and retail, by the subscriber, who is the only Agent for Penobscot County.

Now Nature, herself, a sure remedy brings,
Which cleanses the country like at the springs,
From foulest Disease that lies to the grave,
Laughing Root and Herb Bitters infallibly save.

There's scarcely a dangerous disease we can name,
In which the Root and Herb Bitters have not been used same,
And so safe in their action, they cannot do harm,
When they strengthen the system and act like a charm.
Then why suffer Pain, Disease or Sickness in this life, one is need
No drink alcoholic to be inflicted,
Nor need the food further for nutrients sake,
To the tenderest infant it can't do harm.

Is your *Liver* disordered in *Jaundice* your face?
Then Langley will deal out to the monsters a blow;
Do you suffer from *Headache*—Oppression—quick give us relief;
For *Pains* in all parts are acknowledged the chief:
The motto of "Buy me and I'll do you good,"
Is not that of experience has surely stood—
And many unto it the truth will Appeal,
That the *Root and Herb Bitters* is every one's *Friend*!

Is your Appetite gone, then try *Root Bitters* to be,
And you'll soon be relished a chop or your steak;
The Blood it will purify—redden your cheek,
And straighten your frame should it ever grow weak,
The Ladies declare its such Earnest a boon,

What will the People do?

The passage of the Nebraska bill has naturally created a deep sensation among the people of the North. It was a deliberate uncalled for and reckless violation of an agreement held to be sacred by us—one part of which has been long ago fulfilled. As such the act will be remembered against its authors and against the administration which has sanctioned the measure and carried it through Congress. It was a political folly, as well as a national wrong and this fact, we think, will be made apparent to President Pierce and the northern pro-slavery democracy, after the fall elections are completed. If a freer, more independent sentiment is not given to the next House of Representatives, we have mistaken the feelings and temper of the people. Every northern man who voted for that bill, must look to it's sentence of condemnation. They are all deposed a mad support of the administration; and it is likely that the place of every one of them will be filled by a Whig, or by an anti-compromising anti-slavery democrat.

The passage of the bill will, however, have one salutary effect—viz: a re-construction of the House, and to an extent we hope, which may yet prevent the consummation of that infamous measure now brooding among the purposes of the administration, and which above is wearing to immortalize its infamy—the opening of Cuba, and its annexation, to the use and behoof of slavery. Unless consummated by this Congress, the measure will be likely to encounter a formidable opposition.

We believe that the reckless course of the administration, upon the Nebraska bill, cannot pass unrebuked by the people—and, although extreme excitements are apt, in measure, to pass away with the immediate cause which produced them, and the people are prone to forget politics in the cares of business, yet the wrong perpetrated in this instance is so apparently momentous in its influence and consequences, and so entirely inexcusable, as to rest the attention and awaken the effectual signature of men who are not to be classed as fanatics or abolitionists, but who are among the sound, conservative portion of our north'rn population.

Of such are generally the mercantile classes—and as showing the light in which they regard the measure just consummated, (or to be consummated by the concurrence action of the Senate) we add a few remarks of the Boston Journal—a paper published in a purely mercantile atmosphere, and which, with most of its local patrons, supported the democratic ticket of 1850, against the strenuous free soil opposition of that day. The Journal concludes an article upon the passage of the Nebraska bill, as follows:

"It is too early to judge of the probable future course of events among the freemen of the north, whose every feeling has been outraged by this repeal of the Missouri compromise, but the evidences are strong that opposition to all further extension of slavery, and all connection of the government therewith will be a cardinal point in future Presidential and Congressional elections. For the present the angry agitation which must result from the passage of this bill, President Pierce, his administration, and its supporters in Congress, must be held directly responsible. We cannot doubt that every northern member who voted for this Nebraska iniquity will be rejected and marked. We believe that few or none of them will be returned to Congress. We believe that the administration and the Presidential aspirants who have supported this measure have dug for themselves a pit in which they will be buried from political life."

THE "CUBAN REVOLUTION."—The announcement of a revolution impending in Cuba, alluded to in a paragraph in our Wednesday's issue, was based, probably, upon the following, from the Washington Star. It is not a Creole revolt against Spain, but an African riot on of the Island, which is denominated a revolution. The idea, that our "honest" administration will be anxious to interfere in the domestic institutions of a foreign country, is neither new nor improbable.

We have been favored by our friend in New York with a slight bit important. Dates to the 13th instant, which say that it is difficult to describe the apprehension prevailing through the city, and I understand throughout all the interior towns. The various incidents related of the growing insolence of the negroes is startling. The Marquis goes by the name of "Pope Juan, the Patron of Libertyand Equality." One sees them in knots at every street corner, discussing the decrees. The alarm and excitement is so great in the interior as in the city. *The cry will soon be raised*, and I am sad, sad assured, it will be a bloody and horrid picture. A high officer of the government has told me, that he knows of a cooking device which will cause bitter tears to flow."

From another writer, the same communicant source in New York, we learn that—the agitation to the end of setting free all negroes arriving since 1820, is being pushed with unexampled vigor throughout the whole island.—England, while pretending to oppose the slave trade, has withdrawn all her fleet from the African coast, and openly permits emancipados as apprentices, to Africanize Cuba. According to the best information we can obtain, we shall by no means be surprised if turns out that the government decrees all the negroes of the island virtually free, after a short term of years, except about 150,000. The rest of the times point to this result of their present labors and plots. Thus, we presume it is the "morning decree" which is to "cause Lilac trees to flow," referred to above. And well it may; the free citizens thus to be made may outnumber of them African born negroes almost as barbarous, and quite as incapable of successful self-government, as on the days on which they were landed from the slave ships.

It is a curious and interesting problem with us to know how far the government of the U. States will permit Spain to go from the rock of making Cuba—a mere miles away from our Gulf coast—a second St. Domingo. We have no idea in the present condition of opinion and Congressional sentiment, that these months will elapse before the Executive branch of the government of the United States, will gain; the progress of this English policy in the island to a dead halt, at all risks and any hazard of self-preservation on our part being the first great law of nations, as well as of nature.

There is little doubt that the "statement" on this subject in Cuba, is simply on paper—manufactured to operate on the fears of capitalists here in this country—and designed to stimulate the filibustering tendencies of a certain portion of our population. The pacification of the slaves is a just and necessary proceeding, done in pursuance of the treaty stipulations of Spain, and to check the African slave trade.—Furthermore, it is said to be acquiesced in by the Slave-holders.

THE ECLIPSE TO-DAY.—The Sun, which takes place this afternoon, is calculated as follows, for the meridian of Augusta, and the time will not vary much here:

	h. m.
Beginning of the eclipse,	4 24
Formation of the ring,	5 48
Apparent contact,	5 51
Nearest approach of centres,	6 42 } Mean time.
Rupture of the ring	6 53
End of eclipse,	6 59
Duration,	2 35.

Digits eclipsed, 11 degrees 12 minutes.

The eclipse will be annular at its central path, which crosses the western part of the Atlantic ocean, and through Maine, N. Hampshire, Massachusetts, Vermont, New York, Upper Canada, and the Northwest and Washington Territories. On this track the sun will appear, in the middle of the eclipse, like an immense ring of light—the moon covering all but a narrow rim on the outside. Bangor lies to the northward of the central track, (which is but 125 miles wide) and consequently the eclipse will not be annular here—the shadow covering the southern limb of the sun. More than ten-twelfths of the sun's disc will be obscured.

On the 20th of November of this year there will be a total eclipse of the sun, invisible in the United States, but to be seen in the southern part of Africa and South America. Many are making arrangements to visit the Cape of Good Hope, to make their observations upon it.

SEIZURES.—Marshal Bourdman made lawful prize, yesterday, of forty or fifty gallons of liquor at the boarding-house of Cornelius Mahoney, on French Street. His descent upon it was made through a trap-door located beneath a bed.

Six barrels of rum were taken from the storehouse on the wharf of steamer Boston, by Constable Mayhew.

It will be seen by a card, published in this paper, that Hon. Edward Kent, has resumed the practice of his profession in this city, in connection with his brother, Geo. Kent, Esq. Governor K. is still in the prime and vigor of manhood, and looks quite re-established in health.

ON THE ROUTE.—Steamer Governor, having been refinished, with new boilers, and been otherwise repaired, will take her place upon the Portland route, on Tuesday, evening next.

The President has been requested to communicate to the Senate, copies of all correspondence relative to the slave trade to the island of Cuba, and of any late Spanish decree touching the subject.

Accounts from Rome represent the Pope as in a very bad state of health. He is suffering from a dropsical affection. His passion is very largely developed.

Our readers will notice the advertisement of Mrs. E. G. Shaw, who is about to open a singing-school for children, at the Third Parish Vestry. Mrs. S. is a teacher of merit.

An Annual Conference of the Methodist Episcopal Church, commences at Skowhegan, on the 31st instant.

The reported discovery of a silver mine in Hooksett, N. H., is creating considerable excitement in the vicinity.

Marine Losses.— It is stated that the insurance losses upon American shipping, during the last nine months, have averaged over one million of dollars per month.

New Ocean Line.—On the 28th of the present month, the first of a line of steamers between this country and Genoa will leave the latter place, for New York.

Canadian Lumber.—The Grand Rapids Inquirer estimates the export of lumber from Grand and Big Rapids, the coming season, at a hundred millions of feet.

The annual epizootic complaint has broken out at this South. A Mobile paper states that the intelligence from the growing crops is of a mighty gloomy character, and depredants cotton as in a woeful condition.

"Annette, my dear, what country is opposite to us on the globe.

"Don't know, sir."

"Well, now, if I were to bore a hole through the earth, so—(pointing to the globe)—and you were to go in at this end, where would you come out?"

"Out of the hole, sir," cried the pupil with an air of triumph at having solved the great question.

The Chinese are said to have above 200 centuries under great embarrassment, from not knowing how to make a barrel. They could make the staves and set them up, and hoop them; they could make the heads and put one of them in; and with the help of a man inside, they could even get the second head in; but how to get the man out after the barrel was headed up—that was a problem which they could not solve.

The fellow who got treated with contempt says it isn't half so good as Burgundy.

Among the legal decisions lately published, we find the following, which may be practically important.

MASCOCK CO.—WHITE & al. *versus* CHAPIN.—To maintain assumpsit against one who, after the loss of a vessel at sea, has received the insurance money upon her freight, all the part owners must join, as co-plaintiffs.

Advantage of a non-joinder may be taken on the general issue.

Amend nemo in a suit may be made by striking out or inserting the names of *defendants*.

That rule has not been applied to *plaintiffs*.

Herbert for pl. Robinson for def.

PISCATAQUIS CO.—WARD *versus* CHASE.—In a suit between the vendee of a chattel and an attaching officer, upon the question whether the sale was fraudulent as against the creditors of the vendor, the interest of the vendee is to be viewed as a balanced interest, and he is therefore competent as a witness for either party.

In a suit by the vendee of a chattel against the vendor and his co-partner, such co-partner is competent as a witness for the officer, although, *should the officer recover*, the goods of the property would probably go to reduce the witness's liability upon the partnership debt.

The Nebraska Bill—Details of its passage.

We give some additional details of the House proceedings on Monday, with the yeas and nays on the passage of the Nebraska bill:

Mr. Stephens having, in committee, moved to strike out the enacting clause, with the design of putting all amendments and having the bill reported to the House, cited in support the 11th rule: 'A motion to strike out the enacting clause of a bill shall have precedence of a motion to amend, and if carried shall be considered equivalent to its rejection'—this making its report to the House necessary, after which the substitute could be moved, and a direct vote obtained by its friends.

Mr. Giddings interrupted the gentleman, asking the question that his motion was not in order, because they could not go back to the enacting clause of the bill.

The Chairman overruled his point, saying the rule was specially adapted for that purpose.

Mr. Chandler (Pa.)—This is one of those motions which allow five minutes for debate.

The Chairman—It is.

Mr. Chairman—I express my regret at this wicked——

Mr. Dean here interrupted with a point of order, which the Chairman overruled.

Mr. Chandler resumed—I merely rose to protest solemnly against this extraordinary gag to be applied to the passage of this bill, and to say, while it is possible a majority may thus ride rough-shod over——

Mr. Preston (Ky.) interrupting—I exceedingly dislike, but must rise to a question of order. This proposition is not debatable.

[Much excitement and confusion during these proceedings.]

Mr. Chandler. While we have stood up against the efforts of those who have proved a growing majority; while we have read day by day in the organs of this Administration, not merely lucubrations to come over against us, but intimations that while we were in opposition, we were losing influence in the Executive Departments; and while we have thus seen ourselves threatened, if not wasted by insidious attacks, we, the minority, have not resorted to any mode of defeating the bill which is not recognized by the Constitution of the country and by the rules of the House. But the orders are violated.

Mr. Washburn of Maine referred to the note to the 11th rule, quoted by Stephens, to show that the practice of the House was contrary to what that gentleman proposed. The rights of the minority were thus to be violated. Loud calls to order.]

The Chairman decided the motion to strike out in order. Does the gentleman appeal?

Mr. Washburn. No! but I wish to show what the practice of the House is.

The ayes and nays on striking out was taken, amid great excitement, during which Mr. Dean said: 'Let the minority refuse to vote, and then leave the House without a quorum.'

Messrs. Ferley and Sage exhorted to the same effect and were loudly called to order.

The Chairman declared the question carried, the minority not having voted.

Cries of 'Count the other side!' 'Question!' The Chairman. Those in the negative will now pass between the tellers.

Mr. Campbell of Ohio. About one will pass—and he acted his action in his words. However, 21 others followed his example.

The vote was announced, 103 to 22. So the enacting clause was stricken out.

On motion of Mr. Richardson, the committee rose—Yeas 101, Nays only 2—the minority generally refusing to vote.

[This course was evidently unexpected to the opponents of the bill, and if any points of order were raised, but the Speaker decided in all cases adversely.]

A motion to lay the bill on the table was negatived—yeas 82, nays 112. Mr. Richardson moved the previous question, which was seconded, and the vote on the main question stood, yeas 97; nays 117.

Mr. Richardson moved his substitute for the bill, (being the same as the Senate bill with the exception of Mr. Clayton's amendment) and moved the previous question. Vociferous cries of "question." "Question."

After adverse decisions on points of order heretofore noticed,

The main question was ordered, yeas 115; nays 90.

Mr. Richardson's substitute was agreed to, yeas 115; nays 95.

The question was stated on ordering the bill to be engrossed for a third reading.

Mr. Millson (Va.) moved to lay the bill on the table. Negatived, yeas 100; nays 104.

At half past ten o'clock, Mr. Matteson made an unsuccessful motion to adjourn.

The bill was ordered to be engrossed for a third reading, yeas 112; nays 93.

The bill was read a third time and passed by a vote of yeas 113; nays 100; as follows:

YEAS—Abercrombie, James C. Allen, Willis Allen, Ashe, Bailey, Bayly, Barksdale, Barry, Bell, Bocock, Boyce, Brooks, Bridge, Brooks, Caruthers, Chastain, Clemens, Chidswell, Clark, Clingman, Cobb, Colquitt, Cox, Craige, Cumming, Cutting, Davis of Ind., Dawson, Disney, Dunbar, Dunham, Eddy, Edmundson, Edmondson, Elliott, English, Faulkner, Florence, Goode, Green, Greenwood, Grow, Hamilton, Harris of Ala., Hamilton, Haven, Hibbard, Hill, Hillyer, Houston, Ingersoll, Jones of Tenn., Jones of Pa., Kerr, Kidwell, Kurtz, Lamb, Lane, Latham, Letcher, Lilly, Lindley, MacDonald, McDougall, McNair, Maxwell, May, Miller of Mo., Miller of Ind., Olds, Oliver of Mo., Parker, Perkins, Phelps, Phillips, Powell, Pratte, Reddy, Reese, Richardson, Ritchie, Robbins, Rowe, Ruffin, Seward, Shannon, Shaw, Shower, Singleton, Smith of Conn., Smith of Ala., Smyth, Stephens, Stanton of Tenn., Stanton of Ky., Stuart, Stuart of Mich., Taylor of Ohio, Taylor of Tenn., Thurston, Tracy, Trout, Upham, Ware, Walbridge, Washburn of Ill., Washburn of Me., Wells, Westbrook of Ill., Whitney of Mass., Wheeler, Vance.

There is some mistake in the figures given in the report, as the yeas do not count up but 109, which is probably correct. A classification of the above vote, shows the following:

	For the Nebraska bill.	Against the bill.
Democrats from slave States,	53	4
do do free do	43	46
Whigs from slave do	13	5
do do free do	—	41
Free-soilers	—	4

DR. CRADWAY'S HUMOR DISCOVERY, —AND— BLOOD PURIFIER.

DR. CRADWAY has been using his Blood Purifier in his practice for the last seven years, with great success. He has often been urged by his friends, and those who have tried it, and know its efficacy, to put it within the reach of all.

He has now added to it an *Herb discovered in California*, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

RIVER COMPLAINTS, CHRONIC DISEASES, &c.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient sick with that terrible disease, the California Erysipelas (an Liver Complaint.

The effect was miraculous, curing the man in a few days.

The natives, when bitten by a rattlesnake, or rabid animal, resort to this Herb or a cure.

Hundreds are taking this medicine, after trying in vain other remedies, and say the like was never told them.

Discovery of the California Herb.

About the first of March, in the year 1849, Dr. Kelley sailed from Boston in the ship "Sweden" for California, and arrived at San Francisco in July following. He spent considerable time in travelling the country and mining, but the greater portion of which was spent in the practice of his profession.

While he was practising in the vicinity of Auburn, between the north and south forks of the American river, he frequently noticed the Indians gathering an Herb, which they held in high estimation in curing diseases, bites of rattlesnakes, and rabid animals.

While doctoring a miner for that terrible disease, the California Erysipelas and Liver Complaint, an Indian (whose life he had previously saved while in a quarrel with some miners) came with an Herb which he called *Pain-parcheena*," (which means well one,) he told him to give the "*senora*," (man). The effect he found to be new and wonderful, during the man ins few days.

He afterwards used the Herb in his practice, and found it to possess new and remarkable properties for all kinds of Humors, Liver Complaints, Dyspepsia, Rheumatism, Sores Running Ulcers, Mercurial Diseases, Sick Headache, Kidney Complaints, and a great *alterative and Purifier of the Blood*.

The above is in substance the discovery and medicinal properties of this useful Herb, as related by Dr. Kelley, on his return.

Upon trial, its virtues have been found to far exceed its reputation as the most valuable Medical Herb yet discovered.

Hear a Mother's Voice from the Granite State.

DR. CRADWAY: Dear Sir—In our two last years we have used several bottles of your Blood Purifier in our family, and from the effects produced we believe it to be a most valuable medicine.

I wish to inform you particularly with it has done to our little boy, (he is nine years of age,) and has been a feeble child nine-tenths of his time, on account of being afflicted with *internal humors*, produced by *Indigestion*, and consequently, at times, great *Emaciation* and *Re-erection of the system*. Our boy was last summer and fall he was nearly afflicted with Cholera or the worst kind of a form, so much so that it was distressing to witness the intense agony of the little sufferer while trying to eat the coarsest food. I did not know what course to pursue with him, but finally concluded to make a trial of your *Blood Purifier*, and commenced giving to him about the last of December. I am happy to say that by its use he is made his usual free from sickness, and had health who improved every way, and after taking three bottles in succession, he (for the first time in his life) appeared to be in perfect health, and remained so until he was seized with the influenza in April, which left him with a very bad cough, but we succeeded in relieving that in a few weeks. In July he took cold, and his cough came on again from which he before he was troubled with indigestion and loss of appetite, and soon he was so emaciated that my friends were afraid he was going into a decline.

As soon as his cough was relieved, we commenced giving him the Purifier again to restore his health, and in a short time he became as good as ever. And by the blessing of Almighty God, he is now and has been for two months past, the picture of health.

We have also made use of the Purifier in numerous other cases and have found it to be the very best of Medicines in all such cases, for regulating the secretions, and preserving all morbid matter from the system, and restoring health and vigor.

LAND OFFICE,

Bangor, May 19, 1854.

SEALED PROPOSALS will be received at this office till the twentieth day of June next for furnishing materials, and constructing the masonry, for the Mattawamkeag Bridge.

Persons proposing to build will state the price demanded per cubic yard.

The contractor will be required to remove the old piers and abutments and to furnish materials and construct necessary bands to sustain the bridge in a proper manner while taking down the old and building the new piers and abutments, and he will also be required to place (in a suitable manner) the bridge upon the new piers and abutments as soon as they shall have been completed.

Separate proposals will also be received for furnishing materials for, and constructing the bank walls, and the abutments for small bridge. This work to be of a good kind of culvert masonry.

More particular information may be obtained by an examination of the plans, &c., in the said Office.

Latest News.

From Boston Evening papers of Thursday.

The Nebraska Excitement at Washington.

WASHINGTON May 24.

The indignation of the opponents of the Nebraska bill is unabated. Whigs and Democrats contemplate a joint address to the free States upon the outrage.

The Whig Anti-Nebraska Caucus, Mr. Parker of Indiana, President, was just adjourned. A resolution was passed to issue an address to the free States, and a Committee was appointed for that purpose. Mr. Benton was invited to act on it.

A despatch from Mr. Everett states that he is detained at home by illness, but requests an announcement to be made to the Senate that here he would vote against the Nebraska bill.

The Fishery Treaty.

NEW YORK, May 24, 1854.

The Washington correspondent of the Courier and Enquirer telegraphed last night as follows:

"Lord Elgin and several other members of the Provincial Government have had an interview with the Secretary of State on the fishery and reciprocity questions. These Provinces are decidedly favorable to the Marcy and Crampton project, but the two fishing Provinces are opposed to it, except on the condition that the American fishing bounty and duty on Provincial coals be abolished. They are promised favorable legislation on these points.

Cholera in Providence.

The Providence Journal says there is no doubt of the existence of the cholera in that city, seven cases have occurred within a few days—six of them terminating fatally. Extra precautions for cleanliness have been adopted.

CONTINUATION OF THE NEWS.

[We resume the news at the point where the yesterday's despatch was broken off.

THE BALTIC.

Napier's fleet is reinforced by the line-of-battleships Cumberland and Prince Regent.

French steamer Austerlitz sailed from Elsinore, May 5, supposed for the Gulf of Finland.

Ten French ships have recently joined the fleet.

The Norwegian navy was in Swedish waters.

THE DANUBE.

From the Danube, without news on which reliance can be placed, it is said from Vienna that the Russians have received new checks before Silistria; but no intelligence to confirm the statements has been received by government. The report that the Russians intended to evacuate Great Wallachia arose from Prince Paskiewitch having made changes in Gortschakoff's plans and strongly censured the great extent of the Russian lines.

At Bucharest, it was considered that Paskiewitch would defend that city at any cost.

The Russians now propose to attack Silistria by water.

Part of Hyder Pasha's camp is ordered immediately to Adrianople.

15,000 British troops were at Constantinople, April 30th. Lord Raglan and Prince Napoleon had arrived.

Difficulty between De Hilliers, the French ambassador, and the Turkish government, is settled, and De Hilliers recalled. The cause of difficulty was over-zealous espousal of the cause of Roman Catholic Greeks. He threatened to break off relations with the Porte, but the matter was adjusted by mediation of Lord Redcliffe.

Those Greeks, who can prove that they were not connected with the recent conspiracy, may remain at Constantinople.

Important. Russia is posting a corps of 70,000 on the frontiers of —— and Transylvania. This will compel immediate steps on the part of Austria.

There is no news, whatever, reported from Kars.

GREAT BRITAIN.

In Parliament, Lord Ellenborough called attention to the enormous expense already incurred for the transport of troops—three millions sterling. The Duke of Newcastle replied that the money was not yet all expended, and the troops were healthy. He also said the reports of the bombardment of Odessa had been received, but that they did not differ from the newspaper accounts.

Earl Malmesbury was surprised to find the cause of attack assigned entirely to the outrage on the flag of truce. He asked whether Odessa would have been bombarded if that outrage had not been committed. The Duke of Newcastle refused to state the instructions which Government had issued to the proceedings of the war.

At Liverpool, numerous transport ships are fitting out.

FRANCE.

A camp of 50,000 troops is forming at St. Omer. It is said to be destined for Finland, to co-operate with the Swedes. They will be conveyed at the expense of England.

From Paris, it is stated that Napoleon has written to King Otho, commanding him to desist from aiding Russia. He threatens to occupy Greece with French troops, if this summons is not immediately attended to. 12,000 men are already detailed for occupation.

Austria has also notified Greece of her intention to send troops, unless order is kept.

GERMANY.

Frankfort, 11th. The Rothschilds are actively engaged in an attempt to raise a new loan for Austria, at 75.

PRUSSIA.

The answer recently returned from St. Petersburg to the plan of pacification made by Prussia, last month, is in substance that the present moment is not propitious, but it is hoped the future may be more favorable.

Sensation has been caused at Berlin by rumor of dissensions between the King and Prince of Prussia, relative to the present war. The Prince is well known to be favorable to the alliance with England and France.

GREECE.

Blockade of Greece by the allies has been officially announced. The insurgents are beaten at every point, although still energetically favored by Russia. Russian agents are busy exciting discontent in the island of Candia.

PERSIA.

The Journal of Constantinople says Persia has declared against Russia, and demands restitution of her captured Provinces.

CHINA.

Hong Kong, March 25. The imperial forces have been defeated, and those at Kau Ching have deserted their colors.

MARKETS.

LIVERPOOL, Corrected MARKET. In early part of the week there was decidedly more steadiness in action and sales could be effected at fair market rates but the Bank of England having yesterday advanced the minimum rate to 5 1-2 per cent, all improvement is lost, and the market closes heavily at a decline of 1-8 on the qualities below middling.

LIVERPOOL BREAD STUFFS. Market again active at an advance of two pence on wheat, a shilling on flour and a shilling on corn. Weather favorable to agriculture. Western Canal Flour 37s and 38, Baltimore and Philadelphia 36s. White wheat, 12s 6d to 12s 8d. Yellow and mixed corn, 40 shillings.

LIVERPOOL PROVISIONS.—Gardner & Co. report active inquiry for Beef, with large sales at very full prices, and Pickers demand advance on all qualities. Pork also in increased demand, but the lock being light and holders pretensions high, rest selected at 5s 6d per barrel more. Bacon—fine in fair demand, and 1s heavier rates, but secondary and inferior two to three shillings lower. Shoulders are 3d lower, of a poor quality, sell freely. Tallow dull, two shillings decline. North American 64 to 66 6d. Lard continues to decline. 500 tons reported at 50, to 5 s. Linseed Cake, Seed, and Bark, without enquiries.

So that a Cure is Soon Effected!

It is useless for the Proprietor to state any more than the above plain reality, for upon trying it will fully testify. In a few days all sore throats, Pain and Soreness of the Breast

CAN AND DO ATTEST

ITS USEFULNESS.

BRONCHITIS,

A disease which many suffer

IS BEFORE THEY ARE AWARE

to a premature grave.

Is Cured by It!

The Expectorant immediately suppresses the Cough and Cold, subdues the Inflammation and Fever, removes the Difficulty in Breathing by producing free Expectoration.

EASY EXPECTORATION!

So that a Cure is Soon Effected!

It is useless for the Proprietor to state any more than the above plain reality, for upon trying it will fully testify. In a few days all sore throats, Pain and Soreness of the Breast, Asthma, Influenza, Whooping Cough, Croup, Bronchitis, Hoarseness, Colds, Coughs, Consumption, and all diseases of the Throat, Lungs and Chest, will yield to the healing power of this Balm.

Directions for Using.

Take a teaspoonful of the Balsam when you go to bed, and another when you get up in the morning, and one hour after breakfast. Keep the feet warm and dry, and avoid exposure to cold and damp air. Use no medicine internally except the Balsam, and no outward application except a piece of soft flannel.

Certificates.

Mr. Wm. Hall, Jr., Druggist, Bangor, Me., says: "I have sold Skelton's Pectoral Balsam of Life for the last two years, and have never known it to fail in a single instance to relieve the most severe cough, cold, or pain in the breast. I have sold many bottles of it for Consumption, and in every case it has given entire satisfaction. I have also used it in my own family, and can recommend it as a safe and reliable medicine."
